

Why I Like Baseball

by Jack McCarthy

When I think of baseball I think of people cheering, the crack of the bat and great plays. I enjoy watching my favorite team the Boston Red Sox when they play their arch enemy the New York Yankees.

I enjoy playing baseball because I get to be with my friends and being outside in the sunshine. I like the feeling of throwing a strike and sliding into home plate and dust flying everywhere.

I think that baseball is incredible and I try to get people who don't like it to try it and hope they like it a little bit. I tell people I don't have to play baseball it's something I choose to do.

I would like to attend the baseball camp so I could learn more about the game I love.
